Connect. Inspire. Engage.

The most comprehensive student engagement platform

Streamlined Organization Management

Customize the registration, renewal, and elections processes for student organizations and maintain administrative oversight with robust permission settings.

Effortless Event Planning

Plan, organize, and promote events with ease using our customizable workflows and manage risk with auto-notifications for approvals.

Simplified Reporting & Data Visualizations

Access extensive student engagement reporting functionality through data visualizations, exports, or API endpoints.

On-the-Go Engagement

Connect students to meaningful involvement opportunities with our mobile-friendly platform and seamlessly track participation with our mobile check-in app.

Automated Co-Curricular Records

Showcase and document individual student involvement with a verified Co-Curricular Record.
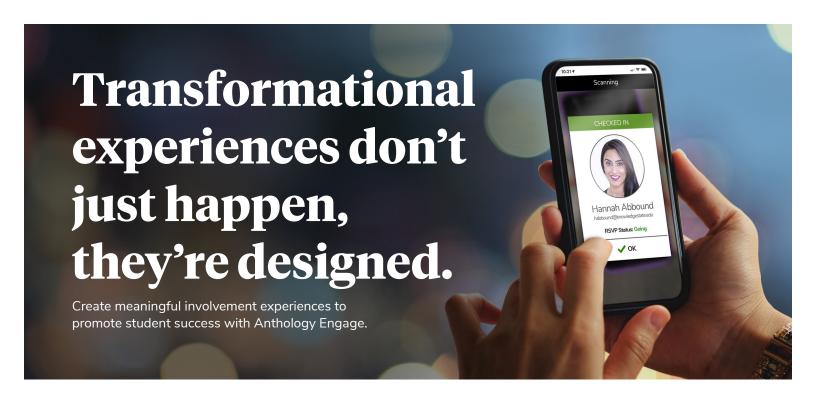

Student-Friendly Interface

Empower students to run their organizations efficiently and effectively with powerful communication, management, and finance tools.

Robust Tools

Intuitive tools lead to quick campus-wide adoption by both students and administrators.

Engage

Transformational experiences don't just happen, they're designed.

Create meaningful involvement experiences to promote student success with Anthology Engage.

Powerful tools for real engagement

Mobile Check-Ins

With just the click of a button, you can track participation at programs and events of all sizes with our Event Check-In app. Highly secure and unique student QR codes allow for multiple check-in points, making tracking participation at programs and events a breeze.

Distributed Oversight

Eliminate the hassle of duplicating processes across campus with our Administrative Branch functionality. Mirror your institution with shared management and administration of processes among divisions and departments.

Customizable Finance Tools

Easily adapt your annual budgeting, spending, and payment processes with our Organization Accounting tools. Improve transparency of finance allocation processes and equip students with an accounting system for approval-based funding and purchase requests.

Pathways for Success

Guide students through intentional experiences for transformational learning with our Co-Curricular Paths tool. From extended orientation programs to leadership training to capstone experiences, it can be used campus-wide or by individual divisions and departments.

Secure Elections

Expedite the election process and ease administrative burden by automating officer elections. Validate voter eligibility, fully describe candidates and platforms, ensure anonymity, and produce targeted ballots for a fully seamless voting experience.

Streamlined Room Reservations

Allow students to quickly and easily view available rooms on campus when creating their event and to request a reservation. Centralize the request, approval, and confirmation processes all within one system.
