Save Time with the

Anthology Engage Room & Resource Integration

Get the most out of CollegeNET's 25Live with the Anthology integration. Setup is quick, straightforward, and user-friendly. Students don't have to bounce between apps or offices, and admins don't need to communicate outside of separate systems. It's all there for you in one convenient place.

Review Features & Select Room .... Receive Confirmation

Aligning your request processes in one central location increases visibility and is key to streamlining the student leader experience.

Engage

CollegeNET®

Making the Most of Event Workflows, Tracking & Reporting

Support your events promotion with a centralized, accessible, and convenient event directory. Increase your efficiency and enhance your understanding by configuring the event submission process with question logic, fine-tuned RSVPs, attendance tracking, and robust data.

Hassle-free Event Approvals

Support your unique needs with customized event information fields and highly configurable workflows for submission, review, and approval.

Be in the Know with Syndicated Promotions

Your students can discover in-person or virtual involvement opportunities through embeddable widgets, RSS and iCal feeds, and our mobile event discovery app. A powerful API also provides an advanced way for you to integrate with other campus systems.

Demonstrate Your Value with Data

Visualize your engagement data with configurable reports and demographics alongside key info from your SIS to prepare for executive meetings, the accreditation process, and funding justification.

Create Successful Events with Critical Info

Highly configurable RSVPs and post-event evaluations empower you to collect what's most important before and after your event.

A More Holistic Picture with Involvement Tracking

Give every student a unique event pass or use other options to capture attendance so participation is automatically reflected on co-curricular transcripts, completes related pathway items, and awards digital badges without extra effort.

Advance Career Readiness with Credentialing

Prepare, plan, and advance your learners' educational or professional careers with portable credentials—automatically generated by event attendance and conforming with IMS Global Open Badges 2.0.
