

Make your assessment process easier.

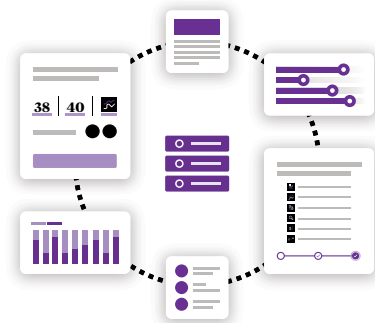

Streamline assessment management

Give new power to your data collection and reporting with a centralized, configurable experience.

With a hub system that houses multiple frameworks, capture the information you need for academic, student affairs and strategic plans— all accessible from one location.

Get started quickly with accreditation-aligned and best practice templates that can be adapted to your needs.

Fully customizable templates allow for consistent collection of data and the ability to choose which fields should be included such as narratives, dropdowns and document upload fields - using your institutional terminology to tell your story of continuous improvement achievement at your institution so you can better understand the validity of your data.

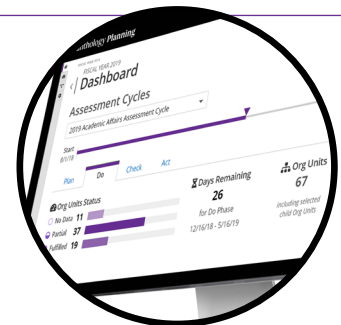

Easily understand unit level progress

Planning frameworks save you time and provide a consistent way to view the data.

View and manage Assessment Cycles that are constructed around the Plan, Do, Check, Act phases and help you visualize progress across specified units at any given time. Know where the gaps are to fulfill your reporting requirements and take action to get back on track with our Gap Analysis Report.

Personalized dashboards help you track responsibilities and announcements.

Create an intuitive user experience with customized dashboards that reduce the apprehension of key stakeholders to get more involved in the practice of assessment.

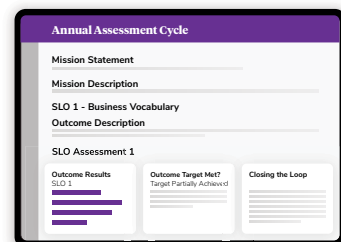

Level up your collaboration capabilities

Create the data transparency and fluency necessary to enhance your assessment efforts with key stakeholders.

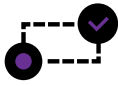

Filter plans and reports according to type, year or assessment cycle—building buy-in and creating the right conversations. Access auto-generated reports to view annual assessment plans at-a-glance.

Produce custom reports using our sophisticated report writer.

Enable users to run updated reports without having to re-configure them each time. Share professional quality reports in app or via email, or export to Word, PDF or CSV format.
